

TEMPEST COMPUTER SYSTEM

IBR50 is a terminal designed to be used in communication networks and TEMPEST protected, according to the NATO SDIP-27/2, level A standard.

Technical specifications

Power Supply	230 VAC
Connectivity	optical fiber LC connector
Maximum Throughput	1 Gbps
Processor	Intel Core i3-6100U (2x2,3 GHz)
RAM Memory	8GB DDR4-2133 SDRAM
Casing dimensions (<i>WxDxH</i>)	580x130x440 mm
Weight	12 kg

Environmental conditions

Operating temperature	0°C ... + 40°C
Maximum relative humidity	80%
