

# DATA CLEANER

## DATA CLEANER - STORAGE DATA WIPING SOFTWARE PACKAGE

---

**DATA CLEANER** software package is provided for safe data wiping on storage devices.

## Description

Data Cleaner is installed with a customized setup kit.

The program can be operated on a user or administrator role. The user role performs data wiping and the administrator role uses the resulting information of the wiping process to issue a data wiping certificate.

The software can perform simultaneously multiple wiping processes and allows adding custom wiping methods.
